October 12, 2006

Mr. Derek Hyman
President
Premium Technology Inc.

Dear Derek:

As you know, I am retiring from the GTAA and returning to England.

I could not leave without expressing my sincere appreciation for all you have done, during my six years here, to ensure the successful opening of the new Terminal 1 at Pearson, the extension to Terminal 3 and many other large projects here.

Yourself, particularly, and the associates you bring to bear at crucial times have all exhibited a level of professionalism and dedication which are a model for all who have observed you at work. Without question, the success of the Terminal activities is directly attributable to your efforts.

Thank you very much and I wish you even more success in the future.

Yours sincerely,

A handwritten signature in black ink, appearing to read "James J. Burke", with a stylized flourish at the end.
